Female Medicines.

Great Blessing to Mothers and Children. Great Bleesing to Mothers and Children.

It is the saisat and most effectual medicine for purifying the system, and reliaving the sufferings attendant upon childbirth ever discovered. It strengthese both the mother and the child prevents pain and disease, increases and enriches the food; these who have used it, think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Contivenese, Flies, Cramps, Swelling of the Feet, Despondency, Hearthurn, Vomiting, Isin in the Back and Loine, False Fains, Hemorrhage, and in regulating the secretions and equalizing the circulation, it has no equal. The great beauty of the medicine is, it is always asfe, and the most delicate use it most successfully, very few cases require any other medicine, in some a little Castor Oil, or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always secure a sele and easy confinement.

I am constrained to give you a statement of the benefit I derived from thing your Serwparilis, believing, by so doing, I shall render a benefit to those who are suffering as I have been. I was reduced for many months by the Dyspepsia, so much that it was with much difficulty for me walk or keep about. I had also a tetler, which covered the most part of my head—which was extremely troublesome and sore; it got to be almost a seah. I used quits a number of remedies for both the complaints, but received little or no benefit, until I took your Sarsaparilla, which, through the kindness of Providence, has restored me to more than my usual health, as I am now enjoying better than I have for a number of years. I am now enjoying better than I have fore a number of years. I am now of years a tage. I believe it to be an invaluable medicine, and recommend it to my numerous acquaintances, which is very large, as I have been a minister a great many year. I hope this hatty sketch may be as much benefit to you as your medicine has to me.
